Introducing Smooth: A Breakthrough in Luxury Skincare

We are thrilled to introduce Smooth, just in time for the cold weather, when our skin needs extra support. This formulation was inspired by the luxury feeling a candle wax massage affords but without the wick! It enhances a high-quality facial regimen and provides a super botanical barrier to protect the skin. The pure and potent formulation includes the anti-inflammatory benefits of CBD.

WHAT PEOPLE ARE SAYING

"Love the way Glow absorbs and feels on my skin. It's become part of my nighttime ritual. My face looks smoother. My husband and daughter have seen a visible difference." - Jamai B.
