OUR STORY

It All Started With Sun Care

Our founder, renowned Dermatologic oncologist Dr. Robert J. Friedman, believed that protecting skin from UV rays and environmental stressors every day was at the center of our overall wellness. So, he set out to reinvent, elevate, and inspire the daily use of SPF by developing clean, effective formulas equal to clinical grade skincare — that also felt luxurious enough to wear every day.

Today, we remain true to our founding philosophy, yet continue to evolve to meet the changing needs of consumers and our environment. Our groundbreaking products are still at the forefront of SPF Skincare — proving that skin care is sun care and should be a part of your daily routine.

Get Ready to Transform Your Skin!

At the heart of all our formulas is our proprietary **ProVention-R® Technology**— a combination of powerhouse ingredients that work to **Protect**, against harmful UV rays and environmental aggressors, **Prevent** future damage and **Restore** skin health with every use.

Delivering True Skin Health: High-performing formulas, mindfully made.

MDSolarSciences' professional-grade, dermatologist-developed SPF first formulas bring a preventative approach to skincare that not only protects skin but addresses real skin concerns, from fine lines to dark spots to past sun damage. Our proprietary ProVention-R® Technology in every formula have been developed to protect, prevent and restore skin health. Our formulas are distributed by top ranked dermatologists, plastic surgeons and spa professionals in the US, as well as national e-commerce sites and retailers.

SPF AT OUR CORE

True skin health starts with daily 365-day protection from UV rays and environmental factors. SPF is the #1 pro-aging product.

"PRO"STIGE-GRADE FORMULAS AT APPROACHABLE PRICE POINTS

Our formulas are medical grade at approachable price points. We believe everyone deserves skin wellness. It's important to support accessibility with affordability without compromising quality — a priority for MDSolarSciences.

SUSTAINABILITY

We believe "clean" is about more than ingredients, it's an understanding of the product ecosystem. All our packaging is 100% recyclable and carries the Sustainable Forestry Initiative seal for responsible paper sourcing. Our formulas are waterless and made at a carbon neutral manufacturing facility. And we are highly ranked by the EWG for using non-toxic ingredients for people and the planet.

INCLUSIVITY

We hold a strong belief in making dermatological skincare more available to ALL. We're committed to the belief that quality skincare isn't reserved for the doctor's office, and should be inclusive of all skin types and tones, providing skin wellness solutions to all.
