For centuries, Monoï has been the sacred oil of the Polynesians, made by macerating fresh tiare flowers in refined coconut oil. Monoï is coveted for its authentically exotic nature.

Since the early 1900's, **Monoï has been the quintessential French after-summer skin remedy.**

Marine + Vine pays homage to Monoï in a clean, classic, luxuriously carefully formulations paired with an intoxicating bouquets to remind you of that one perfect day.

Nomad Rose Hand Cream

La vie en rose

A **rose blooms in Provence** for 2 weeks each May. It blooms in a warm breeze filled with memories of long days in the sun, laughter and a hope of things to come. With the **essence of Rose de Mai**, *Nomad Rose* is inspired by our journeys and the memories we collect along the way, like petals saved in a photo album. Awaken your senses with the fragrant heart of **sugared Rose de Mai** and **Monoï** in this cashmere cream texture to give your hands and soul what it craves.

Revitalize

With a seaweed extract harvested off the South of France, this revitalizing and potent hand cream helps **prevent cellular damage** from sun exposure and chemical stress.

Renew

Nomad Rose Hand Cream combines Monoï and Rose de Mai essence with *aloe vera juice, hyaluronic acid, squalene, entada seed extract, cacaï oil* and *vitamins A, C & E* to leave your hand feeling rejuvenated and petal soft.

“Tahitian Oil achieves the perfect ratio of rich oils, yet creates an enviable, nongreasy summer sheen.”

LIZ RITTER,
EXECUTIVE EDITOR OF NEW BEAUTY

“Brands that boast a litany of SKU's are impressive in their own right, but there's something to admire about a brand that pares its focus down to a few select products. Such is the case with Marine + Vine, which makes just one product: Tahitian Oil (truly crafted to perfection).”

TOTAL BEAUTY

“The Marine + Vine oil has the perfect beachy scent that's not too heavy.”
