

Rock & Ruddle

LONDON

Press Clips

Daily Mail

'I blow dry my hair with my usual ceramic brush until almost dry, then use the boar bristle brush to smooth it down. I never thought I'd feel strongly about a hairbrush, but this is excellent. It cuts through tangles with ease and leaves my hair shiny. A blow dry in a brush.'

Alice Smellie – The Daily Mail

INDEPENDENT

'Our five-year old tester who has moderately thick, very long straight hair found this brush a dream to use, as it glided through with minimal pulling or pain.'

Martha Alexander – The Independent (IndyBest)

'These gorgeous and bright brushes are the perfect tools to get that salon fresh finish to your hair. The super quality boar bristles are super strong with a natural stiffness – but fear not, they do not pull the hair but glide through easily and thoroughly. The brushes contain microscopic scales that release and drag the sebum in the hair, distributing it to make the hair healthier and shinier. Clean by simply dipping into warm, soapy water!'

Sunday Woman

'We love Rock & Ruddle, they make one of the only brushes that can actually glide through my daughter's naturally curly hair with ease. They are always coming up with new designs and we adore the new rose gold offering!'
