# SUNBAKED SPF

*The recipe to healthy skin*

SUNBAKED SPF is science-driven and beauty-obsessed. Kimber Tremblay is a Skin Biologist and the founder of SUNBAKED. Inspired by her graduate studies in Dermatology, Kimber set out to create a modern and inclusive sunscreen. SUNBAKED is proudly a Miami-based, female-owned, mineral sunscreen brand. Since launch in October 2022, SUNBAKED has disrupted the sun care market in South Florida and nationwide.

SUNBAKED's hero product, Glaze, is designed to go beyond sun protection to improve skin health. Glaze is 100% mineral sun care that wears like your favorite skincare. [Learn more](#) about what makes SUNBAKED SPF different.

# The Recipe

Graphic by Exclusive Beauty Club

**Sun Protection (SPF 40+)** - non-nano zinc oxide lotion, broad-spectrum sunscreen defends against 98% of UV radiation, and blocks HEV (blue) light

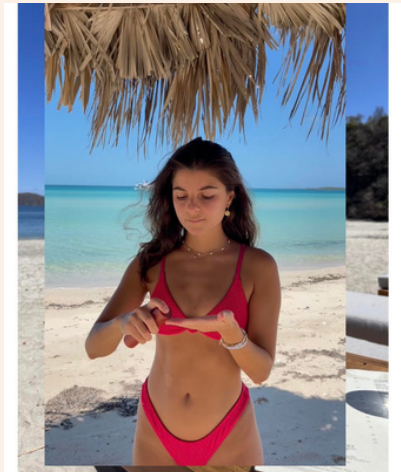

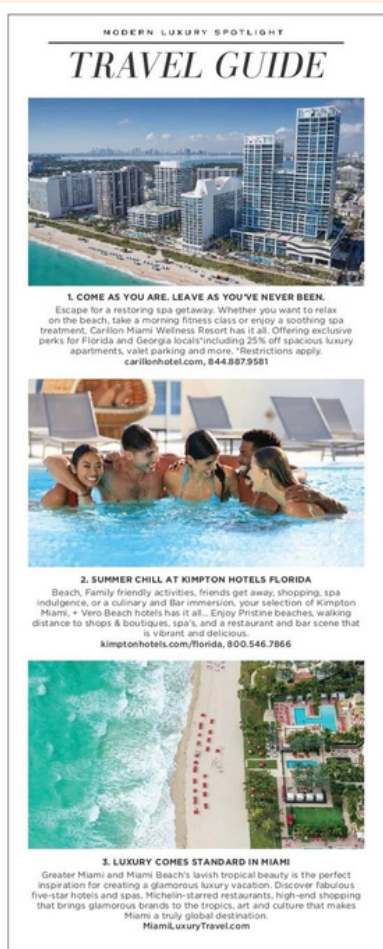

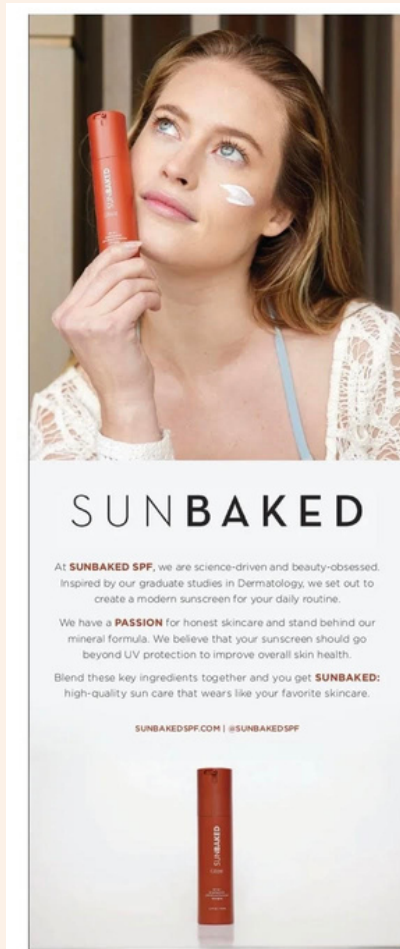

**Anti-Aging** - Our lightweight formula contains sustainably sourced squalene and hyaluronic acid

**Environmental Protection** - green tea extract helps the skin withstand environmental stressors and pollution-induced free radicals

**Hypoallergenic** - We take a clean approach to sunscreen with a fragrance-free formula appropriate for all skin types

- Paraben- free, cruelty- free, reef-safe, vegan
