SUNSCREEN REIMAGINED

Sonrei is an premium gel-based line of sunscreens you'll actually want to wear. We've reworked sunscreen from the ground up to make every part of your sunny adventures enjoyable.

We named our brand Sonrei from the Spanish verb for smile, "sonreir," because we know our sunscreen will leave our customers grinning.

PROPRIETARY  
ORGANOSHIELD® TECHNOLOGY

What is Organoshield? Put simply, it's a gel you'll love applying to your skin. If we're to get technical, it's a semi-solid system in which the organic liquid phase is immobilized within a three dimensional cross-linked network of intertwined gelator fibers.

In other words, our Organoshield formulation creates a clear smooth film that bonds effectively to the top of your skin as a safe protecting layer. The sunscreen ingredients and antioxidants are tightly held in place via a uniform lattice structure, bringing you a sunscreen with maximum efficacy and the soothing feel of a gel.
