SweetSpot Labs

woman-founded, woman-owned, woman-operated

2 generations of women *elevating* intimate skin health, since 2003

Shari Creed FOUNDER

In the early 2000's, Shari noticed irritation "down there" and assumed it was a yeast infection. After a long & frustrating journey with over-the-counter treatments, she finally realized her symptoms were actually contact dermatitis triggered by sulfates in her body wash. When she couldn't find a vulva safe alternative without irritants – she decided to create one. Before clean was "cool," Shari challenged the shame-based conventions of traditional feminine hygiene and pioneered a new way forward for intimate skin health—bringing vulva owners everywhere the products they truly deserve (and need).

Julie Chamberlain CEO

After 15 years of global experience with L'Oréal, most recently as VP Marketing L'Oréal Paris and GM NYX Professional Makeup, Julie left the traditional corporate workplace to join the Executive team of what is now the second largest portfolio of cannabis brands in Canada. This experience confirmed her love for early-stage brand building & scaling, and her passion for health and wellness. In under 2 years since joining SweetSpot Labs in November 2020, she has built her dream team, led an incredibly successful rebrand, launched extensions of hero products to build daily regimens, unlocked the marketing model, and led material topline momentum. With Julie at the helm, SweetSpot Labs is carrying Shari's legacy (now a passive shareholder) into a new era.

We Are On a Mission

- ✓ To provide **safe & effective solutions** to real intimate skin concerns, for women of all ages & life stages, without compromise
- ✓ To champion a healthier way of **seeing, talking about, & caring** for our sweet spots

Clean, Clinical, Conscious

intimate skincare for all your *sweet* spots

Clinical

- ✓ Results-driven actives at effective, clinically-proven levels that drive real results for real (mostly unaddressed) intimate skin needs
- ✓ Carefully curated with emollients, minerals and nutrients to support healthy intimate skin
- ✓ Every formula is clinically tested in gynecologist led + dermatologist validated trials and proven not to cause dermal or gynecological irritation on actual sweet spots
- ✓ Each clinical trial includes consumer evaluation, quantitatively validating product efficacy

Clean

- ✓ Hypoallergenic formulas free-from toxins, irritants, allergens, hormone disruptors, yeast food sources, and comedogenics
- ✓ Safe and suitable for every-day use or in adjunct to prescription-based treatments
- ✓ Market leading hygienic packaging

Conscious

- ✓ PETA certified Vegan* & Cruelty-Free
- ✓ 4 x Ulta Conscious Beauty certifications
- ✓ Cartons made from 100% recycled, FSC-certified, biodegradable paper
- ✓ Primary packaging made with 20 – 50% post-consumer recycled / reclaimed plastics
- ✓ Wipes & Pads made from biodegradable fibers
- ✓ First-to-market “wipeless wipe” (2020)
- ✓ First-to-market refillable packaging (2023)

*all portfolio products except Rescue Balm which is Beegan

Product Portfolio

SweetSpot Labs serves consumers a collection of science-based safe + clinically-proven products that are well positioned across top intimate needs and concerns.

INTIMATE & BODY *moisturizing*

Safe and effective moisturizers that help to soothe, reinforce, and protect vulvar skin from dryness and the itchy/irritating side effects of yeast infections and bacterial vaginosis, dryness that accompanies pregnancy and menopause.

TOP 4 Intimate Skin Concerns*

- #1 Dryness & Itch
- #2 Odor
- #3 Razor Bumps, Ingrown Hair
- #4 Yeast & Bacterial Imbalance

INTIMATE & BODY *cleansing*

pH-balancing cleansers and wipes that cleanse without stripping, and support a healthy skin barrier while softening, soothing, and clarifying skin from chin to toe.

INTIMATE & BODY *smoothing*

Everything you need to treat and prevent the frustrating side effects of hair removal such as razor bumps/burn, in-grown hair and dark spots.

INTIMATE & BODY *balancing*

Prevent intimate odor before it starts and protect from bacterial and yeast imbalances that can lead to intimate breakouts, bumps, itch and irritation.

Uniquely Recommended by Experts

Our clean, clinically proven products are tested, recommended, and personally used by unbiased dermatologists and gynecologists for total intimate skin health

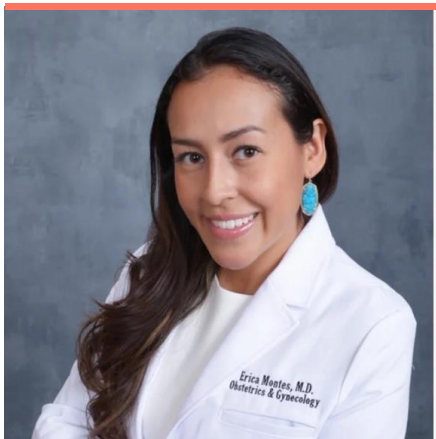

The complexities of diagnosing and treating vulvovaginal conditions require me to be very careful in recommending OTC products. I want a trusted product that I know is going to work and not cause contact dermatitis. The Rescue Balm by SweetSpot Labs is one of those very few trusted products which is why I feel comfortable recommending the brand to my patients.

- Dr. Jill Krapf, MD, Board Certified OB/GYN (@jillkrapfmd)

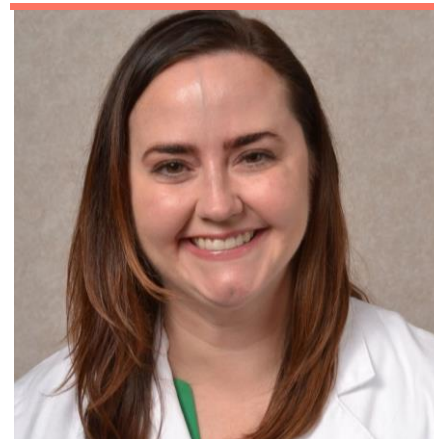

Compliance is essential to achieving a positive patient outcome. Yet, there are very few products available for adjunct therapy that will not trigger contact dermatitis triggers, in a nice vehicle that will support compliance with a daily routine. That's why I'm a fan of SweetSpot Labs clean + clinical approach and recommend their products to my patients regularly.

- Dr. Ellen Marmur, MD, Board Certified Dermatologist

I love SweetSpot Labs! Their unique approach to intimate skincare, offering clinically proven formulations that are safe and non-irritating on the vulva, makes me entirely comfortable recommending their products to my patients, family/friends, and even using them myself.

- Dr. Erica Montes, MD, FACOG, Board Certified OB/GYN (@the.modern.mujer)

As a dermatologist who specializes in both genital skin disease and allergic contact dermatitis, I see patients who have debilitating itching, burning, and pain on their skin. They are desperate for relief and often turn to over the counter products, most of which contain harmful chemicals, harsh irritants, and allergens that can make their symptoms worse. I love the products from Sweet Spot Labs because they are free of all those ingredients. Sweet Spot Labs has made a huge difference in so many of my patients' lives!

- Dr. Kelly Tyler, MD, Board Certified Dermatologist

The New Beauty Products You'll Need Before We Bid Adieu To Summer

09 SweetSpot Labs Microbiome Balancing Creamy Cleanser

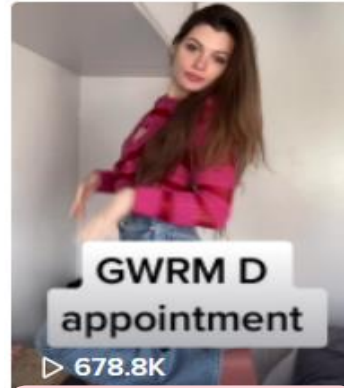

The first wash of its kind, Microbiome Balancing Cleanser is specifically formulated to support the health, balance & comfort of skin prone to bacterial & fungal folliculitis or cutaneous candida. Consciously formulated with clean, clinically effective, non-irritating ingredients that deeply cleanse bacterial buildup & help inhibit excess growth of fungi while supporting the balance of the skin's microbial layer. This chin-to-toe cleanser is uniquely free from known Malassezia triggers that can lead to Pityrosporum Folliculitis.

A Powerful Growing Community
