**09 SweetSpot Labs Microbiome Balancing Creamy Cleanser**

The first wash of its kind, Microbiome Balancing Cleanser is specifically formulated to support the health, balance & comfort of skin prone to bacterial & fungal folliculitis or cutaneous candida. Consciously formulated with clean, clinically effective, non-irritating ingredients that deeply cleanse bacterial buildup & help inhibit excess growth of fungi while supporting the balance of the skin's microbial layer. This chin-to-toe cleanser is uniquely free from known Malassezia triggers that can lead to Pityrosporum Folliculitis.
