ABOUT US

Soy Delicious is one of the most exquisite, cleanest, hypoallergenic, environmentally safe, candles in the industry, with its state of the art, one of a kind wax-proprietary. It is candle luxury at its finest, yet completely safe for the environment on a whole. They have amazing benefits and are eco-conscious, functional, versatile and therapeutic in the following ways:

Environmentally friendly- including the cotton-wick, the soy wax, essential oils and recyclable glass container. Versatility- doubles as a candle that can diffuse aromas but also moisturizes the skin and it comes in a reusable glass container for beverages. Therapeutic- the amazing scents promote well being, while safe for those who suffer from allergies.

Ethically sourced - with sustainable ingredients. Vegan- ingredients include soy, coconut and hemp wax. Hand-poured- to maintain the integrity of the candle and recipes.

Not tested on animals Soy Delicious candles are luxuriously handcrafted and each scent is intentionally made to inspire the user indulging them to feel like royalty. They also have the ability to transport your mind into a virtual reality that, depending upon the scent chosen, can have you feeling like you're resting on a massage table or imagining yourself on a beach smelling the crisp sweet ocean air with the sun warming your skin. The candles contain essential ingredients formulated for an excellent scent and consistent burn performance.
