

ZUZU LUXE

OUR FIERCE FOUNDER

Zuzu Luxe exemplifies what it means to be fearlessly beautiful. Over 25 years ago, the brand was created by our fierce founder Gabriel De Santino—the CEO of LGBTQ+ and Latin-owned pioneering clean beauty company Gabriel Cosmetics, Inc.—and designed for people who want a natural, clean beauty option without compromising bold and bright tones and shades. By offering a variety of high-performance products in on-trend color palettes with a focus on inclusivity and a made-for-all mentality, Zuzu Luxe fulfills the beauty bohemian's standard while challenging the mainstream movement.

WE ARE ZUZU LUXE

Developed out of the necessity to provide people a natural, socially conscious, and fashion forward makeup brand, Zuzu Luxe has continued to define this niche category and has paved the way for new brands to follow in its wake. The brand's core values of integrity, fearlessness, morality, and strength are infused through the bold and classic color palette, while accessibility and functionality are illustrated with the range of product offerings. Zuzu Luxe represents the brave and the bold who dare to be challenged and are unapologetic for their beauty.
